Chapter Overviews	i
Route Map	1
Executive Summary	1
Overview	1
A Brief Explanation of EAI	1
The Vendor and Consulting Landscape	2
Business Integration in the Real World	2
Approaches to Implementation	3
1 The Business Drivers for Integration	5
Executive Summary	5
Business Background	5
Business Opportunities for Integration	6
Extracting Value From Mergers and Acquisitions	6
Delivering New Levels of Customer Care	7
Benefiting From the Investment in ERP Applications	7
Exploiting the Benefits of Customer Relationship Management	8
Delivering the Benefits of Supply chain Management	8
Integrating Web-based Information	9
Delivering E-business	9
From Old Business to E-business	10
The Emergence of EAI	11
2 The Role of EAI in Business Integration	13
Executive Summary	13
Introduction	13
User Confusion	14
User Motivations and Concerns	15
The Consultancy Perspective	16
The Vendor Perspective	17
What is EAI?	17
EAI Compared With Traditional Middleware	18
EAI: The Technology	20
The Business Logic Layer	20
The Integration Services Layer	20
The Messaging Layer	22

A Closer Look at the Integration Services Layer	22
Connectivity	23
Message Translation and Transformation	23
Intelligent Routing and Rules Processing	23
Additional Message Services	24
Management and Audit Services	24
Using EAI in the Real World	24
Linking to Data	25
Linking to Objects	25
Linking to Applications	26
The Relevance of XML	26
3 Business Integration in the Real World	27
Executive Summary	27
Introduction	27
The ERP Vendor Response to the Business-integration Challenge	28
The Application of EAI Technology to Business Integration	29
Data Consistency	29
Point Gaps in Application Functionality	30
Business Process Functionality Gaps	30
Business-to-business Integration	31
How EAI Technology is Used In the Real World	31
Building Data Consistency	32
Single Application Support	33
Internal Process-orientated EAI	36
Business-to-business Integration	38
Conclusion	40
Case Studies	40
British Airways	41
Deutsche Bank	50
EDS Enterprise Solutions	58
Elsevier Science	64
Fujitsu Computers	71
General Motors	79
Honeywell Europe	85
Scottish Power	90
Tesco	96
VF Corporation	104
Zurich Financial Services	112

4 Vendor Offerings	117
Executive Summary	117
Introduction	117
The Vendor Landscape	118
The Package-based Vendor Response	119
Section A: Vendor Profiles	120
Active Software	121
BEA Systems	122
Candle Corporation	124
Consteller Corporation	125
Crossworlds	126
Extricity Software	128
Forte Systems	130
IBM	132
IONA Technologies plc	134
Level 8 Systems	136
Microsoft Corporation	138
MINT Software Technologies	139
New Era of Networks Inc (NEON)	140
Oberon Software	142
OnDisplay	144
Oracle Corporation	145
Software AG Systems Inc (SAGA)	146
Software Technologies Corporation (STC)	148
TIBCO	149
Mercator	150
Viewlocity	152
Vitria Technology	153
WebMehods	154
Section B: Leading ERP Vendor	155
Baan	156
JD Edwards	158
Oracle	159
PeopleSoft	161
SAP	163

5 The Consultancy Response	165
Executive Summary	165
Introduction	165
Market Drivers	166
Sector Demand	166
Vendors	167
Services	167
Consultancy Perspectives	167
Canopy International	168
Cap Gemini	171
EDS	175
KPMG	179
Logica	183
PricewaterhouseCoopers	187
6 Approach to Implementation	191
Executive Summary	191
Introduction	191
The Business Case for EAI	192
Longer-term Benefits	193
Tangible Benefits	194
Costs	195
Risks	196
Implementing EAI	197
Phase One: Business Alignment	198
Phase Two: Framework Setting	199
Phase Three: Project Delivery	202
Appendix 1: Vendor Listing	205
