Introduction: Predictions from the Class of 2005	196
The Predictions of the Report's 2008 Class of Expert Advisors	196

Globalization and emerging sourcing models	196
Sourcing trends	197
Next step-change finance function change improvements	198
Insights	198
Efficiency	199
Controls	199
People	199
Systems and data	199
Better decision support	199
The end of the line for the finance function?	199
A Roadmap for Mastering the Six Capabilities of World-Class Finance	200
1. What strategies should you put in place to secure the labour arbitrage benefits of globalization?	200
2. How will you configure the finance organization to support the enterprise's globalization strategies?	201
3. What is your vision for world-class finance in your organization?	201
Capability 1: Masters of the flawless delivery of transactional processing activities	202
4. Which solutions will you use to deliver transactional processing services?	202
5. How will you use a finance shared services solution?	202
6. How much scope is there for standardizing finance processes?	203
Capability 2: Masters of strategic business partnering	203
7. What does being a strategic and business partner mean for finance in your organization?	203
8. What essential changes will you have to make in your organization to reach world-class status?	204
Capability 3: Custodians of corporate performance management	204
9. How will you integrate all the aspects of corporate performance management into an integrated, value-adding whole?	204
10. What are the major non-financial drivers of financial performance?	205
11. As custodians of corporate performance management and reporting, how will finance capture and report a balanced portfolio of performance metrics?	205
12. How will you ensure that the budgeting process drives real value for the enterprise?	205
Capability 4: Custodians and champions of the governance process	206
13. What role will finance play to ensure robust corporate governance procedures and policies are in place organization-wide?	206
14. How will finance professionals manage the trade-offs and conflicts between their roles as business partners and responsibilities for ensuring compliance?	207
Capability 5: World-class talent management	207
15. How will finance acquire the right mix of talent to deliver the other capabilities?	207
16. How do you ensure that you have the right mix of talent to compete globally?	208

17. How are you shaping new career paths to meet the requirements of a new finance delivery model in the global era?	208
18. How will you ensure that the objectives and metrics of the finance organization directly support those of the enterprise?	209
19. How will you create a balanced performance management framework for the finance organization that shows both efficiency and effectiveness dimensions?	209
20. What scope is there to use benchmarking to improve performance against effectiveness and efficiency dimensions?	210
21. How long will your journey toward world-class status take?	210
