## **Tables and Figures**

### **Chapter 1: Introduction**

Summary

Introduction

Redefining HR Strategy: Survey Findings

Measuring HR Value: Confidence and Demonstrability

Measuring HR Value: the Intangible made Tangible

Measuring HR Value: the Human Dimension of Business

Accounting for human capital: first attempts

The new emphasis on competence and knowledge

The balanced scorecard approach to human capital

Watson Wyatt's Human Capital Index

Measuring people's contribution: The Human Capital Monitor

Current state-of-the-art: internal 'informing' versus external 'reporting'

Measuring HR Value: Four Key Truths

Truth No 1: Having a measure capable of being linked to essential corporate goals does not mean you are using it in that way

Truth No 2: Causal links are never self-evident – they have to be proved (and re-proved)

Truth No 3: Validity is only achieved if the metric succeeds in capturing what it is supposed to

Truth No 4: The right data is useless if it is not acted on

Conclusion: linking measurement to change

**Case Report: Novo Nordisk**

### **Chapter 2: Measuring Human Capital**

Summary

Introduction

Tailored or Benchmarked?

Big Picture or Small Picture?

Tangible or Intangible?

Conclusion: Alignment or Projection?

Action Points

**Case Study: Reuters**

### **Chapter 3: Measuring Commitment**

Summary

Introduction

Measuring Commitment: The Lessons from Tracking M&As

*Case Report: Values-based management at IBM*

Conclusion: Tracking Changing Goalposts

Action Points

**Case Study: Deutsche Bank**

## **Chapter 4: Measuring Engagement**

Summary

Introduction

Measuring Engagement: Ongoing Assessment

*Case Report: Royal Bank of Scotland*

*Case Report: Reuters*

Measuring Engagement: Specific Initiatives

*Case Report: British Airways*

*Case Report: The Children's Mutual*

Conclusion

Action Points

**Case Study: Central Norfolk Health and Social Care Economy**

## **Chapter 5: Measuring Innovation**

Summary

Measuring Innovation: The Creative Class Index

Measuring Innovation: The Strategic Competencies Approach

Measuring Innovation: The Cultural Assessment Approach

Measuring Innovation: The Importance of Cross-correlated Indicators

*Case Report: Measuring and assessing 'freedom to fail'*

Conclusion: The IP Management Imperative

**Case Study: Nortel**

## **Chapter 6: Measuring Strategic Capabilities**

Summary

Introduction

Measuring Strategic Capabilities: The Ulrich/Smallwood Model

*Case Report: InterContinental Hotels Group*

Conclusion: Alignment and the Role of the Balanced Scorecard

**Case Study: Yorkshire Water Services**

## **Chapter 7: Reporting and Benchmarking Human Capital**

Summary

Introduction

Reporting Human Capital: Attempts to Quantify Value

Reporting Human Capital: Establishing the Right Framework

Conclusion: More than a Collection of Indicators

Action Points

**Case Study: Allied Irish Bank**

## **Chapter 8: Developing a Strategic Measurement Capability**

Summary

Introduction

Developing a Strategic Measurement Capability: The Mercer/CIPD Framework  
Developing a Strategic Measurement Capability: A Training Needs Assessment  
Setting human capital management in context  
Getting started: gathering and collating the data  
Tools and methodologies  
Reporting the data  
Conclusion  
Actions Points  
**Case Study: RBS**
